Back-end NodeJS developer from Uzbekistan

---

**OVERVIEW**

I am a skilled developer with a strong foundation in programming since 2021. Since 2023, I have specialized in Node.js, focusing on creating efficient and scalable server-side applications. I excel in developing RESTful APIs and integrating databases, always striving to deliver high-performance backend solutions. You can see a link to my projects on my github page. I am open to job offers.

**EXPERIENCE**

**Freelance**  01/2024 - Current  Developing websites and telegram bots by order

- Since January 2024, creating websites and Telegram bots based on orders.
- Developing projects independently in the Node.js back-end field.

**Open Web Academy**  03/2024- 06/2024  Teacher Assistant

**Responsibilities**:
- Assisted lead instructors in delivering course content and materials
- Provided one-on-one support to students, helping them understand complex concepts
- Graded assignments and provided constructive feedback to improve student performance
- Facilitated group discussions and coding workshops to enhance collaborative learning

**Reason for Leaving:**

Despite dedicated efforts, students struggled to grasp the material and pass exams as they lacked a foundational course. This led to the closure of the course.

**EDUCATION**

## Open Web Academy

03/2023- 03/2024    Programming

- For 1 year, I studied Back-end programming at the Open Web Academy IT Academy in Karshi
- During the course, I deeply studied ExpressJS, MongoDB, PostgreSQL, and many other technologies. You can see more below

## Mohirdev

01/2023- 03/2023    Programming

- I successfully completed the "Professional NodeJS" course by Bekhruz Kholmimunov on Mohirdev online education platform
- During the course I studied NodeJS, ExpressJS, SSR and MongoDB in depth.

**SKILLS**

**Communication** / JavaScript / TypeScript / MongoDB / NodeJS / ExpressJS / NestJS / NoSQL / OOP / Git / Github / ORM / ODM / PostgreSQL / Sequelize / Redis / HTML / CSS / Bootstrap / DevOps / Testing / Nginx / Linux / SSR / REST / Telegram bot, Swagger

**LANGUAGES**

- Uzbek (native)
- English (B1)
- Russian (A2)
